Grow your own collection

1. Pick a color group you know your customers will like.
2. Start with a salad bowl or other large piece.
3. Add pieces of various sizes and shapes. Think of Claude Monet as your muse. You are creating a garden in your store.
4. Add other colors for contrast and texture. Too much of the same color can be claustrophobic.
5. Add as many ramekins as your budget allows. Ramekins are always the entre point to Mustardseed & Moonshine.

6. Then ask yourself, would Claude be happy? If the answer is yes, Voila! Happiness & joy on plate!
